The Pioneer VSX-932 brings out the full excitement from everything you see and hear, with DTS:X® and Dolby Atmos® featuring the Reflex Optimizer for Atmos-enabled speakers, Ultra HD video, HDR10, HLG (Hybrid Log-Gamma), and Dolby Vision™. Stream music to any room with FlareConnect™, Chromecast built-in, and DTS Play-Fi®. Listen to a multitude of songs via internet radio and network streaming services, with smooth control on the Pioneer Remote App. You can even connect a turntable via the phono input.

**AMPLIFICATION**
- Channels: 7
- Amplification Type: Direct Energy
- 130 W/ch (6 ohms, 1 kHz, THD 1.0 %, 1ch Driven)

**AUDIO FEATURES**
- Dolby Atmos®/Dolby Surround
- DTS:X/DTS Neural:X
- Reflex Optimizer
- Dolby TrueHD/Dolby Digital Plus
- DTS-HD Master Audio/DTS-HD High Resolution Audio/DTS 96/24/DTS-ES/DTS-HD Express
- DSD Disc (SACD) Playback via HDMI (2.8 MHz/5.1ch, 2ch)
- Digital Core Engine with Cirrus Logic (Quad Core) x1
- 384 kHz/32-bit DAC (AK4438)
- HDMI Audio Return Channel (ARC)
- MCACC Auto Room Tuning
  - Phase Control
  - Subwoofer EQ
- Advanced Surround Modes
  - Classical, Unplugged, Entertainment Show, Drama, Advanced Game, Action, Rock/Pop, Sports, Extended Stereo, Extended Mono, Front Stage Surround Advance

**VIDEO FEATURES**
- HDR10, HLG and BT.2020 Pass-through Support
- Ultra HD Upscaling (1080p → 4K)
- 3D Ready (Blu-ray Disc™, Broadcast, and Games)
- Deep Colour (36-bit), “x.v.Colour”

**HOME NETWORK FEATURES**
- FlareConnect™† for Multi-room Audio
- Chromecast built-in™‡
- DTS Play-Fi™‡ Ready
- Apple AirPlay Certified
- Spotify, TIDAL and Deezer Music-Streaming Services‡ Ready
- Internet Radio with TuneIn
- Hi-Res Audio File Playback via USB/Network
  - Up to 192 kHz/24-bit ALAC, AIFF, FLAC, WAV
  - 5.6/2.8 MHz DSD Playback (except via Wireless LAN)
- Dolby TrueHD Playback (via USB only)

**CONVENIENCE FEATURES**
- Built-in Wi-Fi® (Dual Band 5 GHz/2.4 GHz)
- Works with Pioneer Remote App (iOS/Android™)*4 for Multi-room Entertainment Control and Network Streaming
- GUI with System/Network Setup Menu
- Auto Power Off in HDMI Standby through
- AM/FM Tuner 40 Presets
- Sleep Timer
- User-Friendly Simple Remote Control

**FRONT TERMINALS**
- USB 1 In for USB Drive
- MCACC Setup MIC In
- Audio 1 In (Mini Stereo Jack)
- Phones 1 Out

**REAR TERMINALS**
- HDMI 4 In (4 Assignable)
- HDMI 1 Out
- Ethernet 1 In
- USB 1 In for USB Drive
- AV (Composite) 2 In (Assignble)
- Phono (MM) 1 In
- Digital Coaxial 1 In (Assignble)
- Digital Optical 1 In (Assignble)
- Subwoofer 2 Pre Out
- Speaker 7 ch Out (FRONT, CENTER, SURROUND, SURROUND BACK/HEIGHT/ Bi-AMP)
- FM/AM Antenna

**SPECIFICATIONS**
- Power Requirements: AC 220-240 V, 50/60 Hz
- Power Consumption/Standby: 480 W/0.15 W
- Dimensions (W x H x D): 435 x 173 x 320.5 mm
- Weight: 8.8 kg

* Available with firmware update  † Chromecast-enabled apps required  ‡ Availability of services may vary by region  *4 Available for free download from the App Store/the Google Play

Silver model also available in Europe
Multi-Dimensional Excitement with Dolby Atmos®

The VSX-932 is compatible with 5.2.2ch configuration of the latest theater sound platform, Dolby Atmos®, to reproduce object-oriented sound in smooth, curving movements, or the realistic three-dimensional movement overhead by the top speakers.

DTS:X®

DTS:X is the next-generation audio codec from DTS that leverages object-based audio to enable new immersive and interactive audio experiences. Since DTS:X can automatically adapt the audio to the existing channels and speaker system, no specific speaker layout is required. Experience an immersive soundscape with incredibly rich and life-like audio.

Next Generation Video Standard Ready

The VSX-932 supports pass-through for HDR10, HLG (Hybrid Log-Gamma) and Dolby Vision. By connecting the source device, you can enjoy these latest video standards on a compatible display. What’s more, all HDMI terminals support 4K, BT.2020, and HDCP 2.2, so you will have no problem when upgrading to new devices.

MCACC Auto Room Tuning

Create the optimum acoustic environment with Pioneer’s MCACC (Multi-Channel Acoustic Calibration System), developed with the expertise of professional recording studios. With the custom microphone, the system automatically compensates for differences in speaker size, level and distance, and equalises response.

Synchronised Sound with Phase Control

As an innovative solution for the phase lag between the subwoofer and the main channel speakers caused by the bass management filter, Phase Control compensates the delayed bass to improve sound synchronisation.

Reflex Optimizer

When using Dolby Atmos-enabled speakers, high directivity sound from the unit reflects off the ceiling, while low directivity sound directly reaches the ears. The different pathways cause a phase shift, making the sound feel uncomfortable. The Reflex Optimizer which uses the Phase Control technology adjusts this shift, and improves the localisation of the sound image by aligning the frequencies with those of the floor speakers, creating the ideal reproduction environment.

Multi-room Audio Offers a Variety of Ways to Enjoy Music

FlareConnect™ shares audio from network and external audio input sources between compatible components. Enjoy effortless multi-room playback of LP records, CDs, network music services, and more with supported components and speaker systems. Music selection, speaker grouping, and playback management across the home are built into the Pioneer Remote App**.

Chromecast built-in

The VSX-932 comes with Chromecast built-in, so you can use your mobile device to stream your favorite music, radio, or podcasts to your speaker. You can control the audio from anywhere in the house using Chromecast-enabled apps running on your personal device—Phone, iPad, Android phone and tablet, Mac and Windows laptop, and Chromebook™. Discover Chromecast-enabled apps at g.co/cast/audioapps.

DTS Play-Fi®

DTS Play-Fi® wirelessly streams any audio content from any compatible mobile device to stream the VSX-932 and DTS Play-Fi™ compatible audio systems, creating a multi-room system in your home. You can stream different sources to different speakers at the same time from the Pioneer Music Control App. * DTS Play-Fi will be available with firmware update.

FlareConnect™

FlareConnect™ shares audio from network and external audio input sources between compatible components. Music selection, speaker grouping, and playback management across the home are built into the Pioneer Remote App**.

Phono Preamp

The VSX-932 comes with a built-in phono preamp, allowing you to connect your turntable directly to your home theater system. This feature eliminates the need for an external phono preamp, simplifying your setup and improving sound quality.

Live Sound Localisation

Dolby Atmos®

Dolby Atmos® is a platform, Dolby Atmos®, that creates an immersive audio experience by simulating the spatial cues of sound sources. This technology allows for a more realistic and engaging audio experience, as if you were physically present in the theater. When using Dolby Atmos-enabled speakers, high directivity sound from the unit reflects off the ceiling, while low directivity sound directly reaches the ears. The different pathways cause a phase shift, making the sound feel uncomfortable. The Reflex Optimizer which uses the Phase Control technology adjusts this shift, and improves the localisation of the sound image by aligning the frequencies with those of the floor speakers, creating the ideal reproduction environment.
